

Sensient's Natural Brown range is a natural alternative to caramel colour.

# Natural Brown

Responding to the demand for natural alternatives to caramel colours, Sensient has developed a comprehensive range of natural brown shades for food and beverage applications. Products based on fruits and vegetables are available as colouring food complying with the EU Guidance Notes on Colouring Foods. In addition Sensient offers unique combinations of different natural colours, creating a wider spectrum of natural brown shades. Across a wide application range Sensient offers stable, attractive brown shades from milk coffee shade to rich dark browns, with products to meet Kosher, Halal and vegetarian requirements.
